Using high-performance aerial drones equipped with precision spraying systems, we clean roofs of all sizes and shapes without stepping foot on your roof. Whether you own a residential home or a large commercial facility, drone cleaning delivers a modern, efficient way to clean your roof without the risk of damage or injury. Request a Quote Roofs.com.au Why Choose Drone Roof Cleaning? Zero Foot Traffic on Your Roof No risk of cracked tiles, dented metal, or damaged ridge caps from ladders or human movement. Safe for Steep, High, or Fragile Roofs Perfect for roofs that are too dangerous or difficult to access using traditional methods — including tile , metal , slate , and terracotta roofs. Fast and Efficient Drones can clean large areas quickly with uniform

coverage, reducing labour time and disruption to your property. Environmentally Friendly Our drones use precision spraying to minimise water use and prevent unnecessary chemical runoff. Ask about our eco-friendly roof cleaning options. Comprehensive Coverage Ideal for properties with difficult access points, multi-storey buildings, or high-pitched rooflines. Roofs.com.au How Drone Roof Cleaning Works Our team at Roofs.com.au uses purpose-built cleaning drones with GPS guidance, high-definition cameras, and calibrated nozzles to deliver an even, controlled clean. Here's our process: Initial Roof Assessment We carry out a roof inspection using aerial imagery and drone reconnaissance to evaluate your roof's condition and determine the best cleaning method. Safety & Setup Our technicians secure the airspace, establish safe flying zones, and prep the site for the drone operation. This includes temporarily sealing downpipes and protecting nearby surfaces. Cleaning Solution Application The drone applies either a water-based or chemical roof cleaning solution depending on the roofing material and level of dirt, moss, or mould. Optional Rinse (if required) In some cases, we program the drone for a light rinse or allow rainfall to naturally wash the loosened contaminants away. Post-Clean Inspection We provide before-and-after imagery to confirm the quality of the clean and highlight any potential issues, such as roof damage or blocked gutters . Request a Quote Roofs.com.au Ideal Applications for Drone Roof Cleaning Drone cleaning is particularly effective for: Residential homes with steep or fragile roofs Commercial and industrial buildings with large flat or multi-level rooftops Heritage properties that require non-invasive care Roof areas surrounding solar panels or skylights Environmentally sensitive areas where chemical runoff must be tightly controlled Expert Insight: "Drone cleaning not only reduces the risk of personal injury but also protects your roof from accidental damage during cleaning. It's a smart choice for long-term roof care." — Jared T., Drone Operations Manager at Roofs.com.au Request a Quote Roofs.com.au What Roof Issues Can Drone Cleaning Address? Drone cleaning can help treat or prevent: Moss & Lichen Buildup Mould from Poor Ventilation Roof Stains Debris and Dirt on Flat Roofs General grime caused by pollution, trees, and weathering Pro Tip: "Combine drone cleaning with roof maintenance once every 1–2 years to extend the lifespan of your roof and keep it in top condition year-round." Roofs.com.au Compatible Roofing Materials Drone roof cleaning is suitable for a wide range of roofing types including: Colorbond Roofing Tile Roofs Terracotta Roofs Metal Roofs Slate Roofs Flat Roofs For asbestos roofs , please see our asbestos roof removal process before scheduling any type of cleaning. Request a Quote Roofs.com.au Is Drone Cleaning Right for You?
